

THETAHEALING®

Thursday through Saturday, December 8-9-10, 2011.

A three day top seminar on ThetaHealing® and how to put to use our natural intuition, relying upon unconditional love of Creator Of All That Is to do the actual “work”. We believe by changing your brain wave cycle to include the “Theta” state, you can actually watch the Creator Of All That Is create instantaneous physical and emotional healing.

Upon learning the technique of ThetaHealing®, you will see that everyone has intuitive abilities that can be used to bring about spontaneous physical and emotional healing. Using this personal process, you will help yourself as well as others.

What is ThetaHealing about?

ThetaHealing® is designed by Vianna Stibal as a therapeutic self-help guide to develop the ability to change on all levels: physically, mentally, emotionally and spiritually using the Creator of all That Is.

ThetaHealing® is best known for the Belief and Feeling Work on all four levels; Core, Gene, History, and Soul. With growing scientific evidence that toxic emotion can contribute to disease and the awareness that emotions, feelings and the power of thought have a direct bearing upon our physical health, there is increasing interest in changing how the mind influences the body to create optimum health. Belief and Feeling Work empower people with the ability to remove and replace negative emotions, feelings and thoughts with positive, beneficial ones. ThetaHealing® can be most easily described as an attainable miracle for your life.
